Subject: Microsoft Settlement

Dear Ms. Hesse,

I am writing in regard to the proposed settlement in the Microsoft Antitrust case. I feel that there are tremendous problems with the proposal and support the open letter written by Dan Kegel. There you will find my signature along with many many other people who are also concerned by this proposal.

I also support Dan Kegel's essay regarding the problems and difficulties that the proposed settlement will create. I hope that the Department of Justice will seriously reconsider the problems with the plan and work to revise it so that it will be of benefit to computer users.

If Microsoft is not reined in and given more stringent guidelines to follow, they will continue to create products which don't work and there won't be any alternatives available. I am glad that there are alternative operating systems available currently, but they deserve just as much access to the market as Microsoft has.

Thank you for your time and consideration of this matter.

Sincerely,
Kimberly A. Brosan
